LEED Analysis

Stravilink WallStrip

Recycled content

The Stravilink WallStrip contains 90% recycled content.

Fabrication Location

This product is manufactured in Wavre, Belgium.

Material Source

The extraction points for the materials in this product are outside of the 500 mile radius.

End-of-life

The product consists of recycled rubber granules bonded with a polyurethane binder. The bonded construction limits material separation at end-of-life and may restrict conventional recycling options.
