

Straviwood ModuLink

Installation Manual

Installation Tools and Components

- Ink marker
- Pocket tape measure
- Screwdriver
- Personal protective equipment (PPE)

1 / Supporting Wall & System Components

Ensure the CLT-components are physically sound, clean and dry prior to installation.

Mark where the Straviwood ModuLink brackets will be installed.

2 / Install Straviwood ModuLink Brackets

After marking the positions, insert the Straviwood ModuLink brackets between the two walls and secure them into place with screws.

Recommended Screws

- HECO-TOPIX-PLUS 10x100, flange head screws

Straviwood ModuLink brackets can be used between floor/roof elements or to connect two walls.
