## Paço de Arcos, PT

### Property Owner

Grupo IMPRESA

### Main Contractor

Alves Ribeiro

### Structural Engineer

Estiplano - Estudos e Projectos, Lda.

### Architect

Nuno Leónidas Arquitectos

### Acoustic Consultant

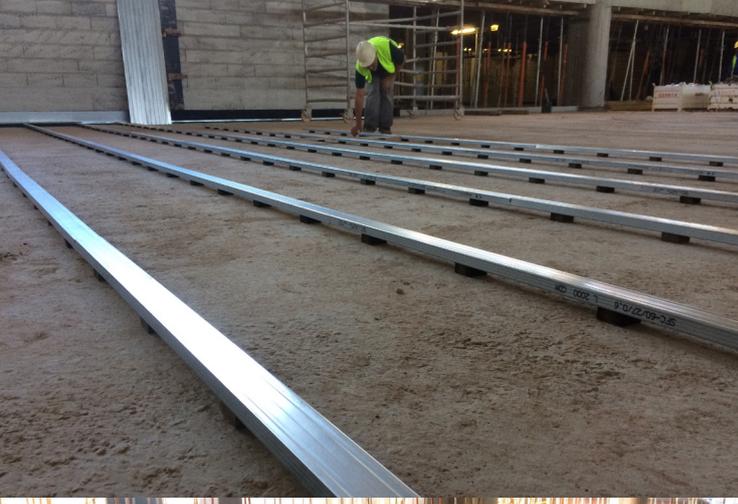

Engenharia de Acústica e Ambiente, Lda.

## OVERVIEW

Grupo IMPRESA is an important private Portuguese broadcasting, newspaper and magazine organization. SIC TV, moved their offices from Carnaxide to Paço de Arcos, next to the headquarters of Grupo IMPRESA.

## Stravifloor Deck

- High-performance floating floor system for concrete and light wooden construction
- Allows for large support spans

## SOLUTION

The new construction is a multifunctional building, where TV, production studios, newspaper and magazine offices coexists side by side to the Administration Board.

The system was designed as a single 763 m<sup>2</sup> floating floor, running under various studios, guaranteeing acoustic high efficiency isolation between studios and surrounding multifunctional spaces.
